

Student number _____

Name, first name(s) _____

Department _____

Doctoral degree _____

Step 1: Request Completion of Doctoral Studies

Before you can register for your doctoral exam you must have requested the completion of your doctoral studies in your myStudies profile (www.mystudies.ethz.ch). Under the tab "functions" you will be able to select "request completion of doctoral studies". The doctoral administration of your department will then be able to confirm its completion. As soon as that is completed you can register for your doctoral exam.

Attention: Without this request confirmed by the department, no exam registration can take place. Please do this as soon as possible and subsequently send all documents for the exam registration directly to: doktorat@ethz.ch

Step 2: Consent of the Supervisor of the Doctoral Thesis to Register for the Doctoral Examination

Date *Signature of the doctoral thesis supervisor*

Step 3: Details on the Dissertation and Statement of Originality

Please note the following points:

- You must register for the doctoral examination **at least 15 working days before the doctoral examination**.
- Registration is only possible with the approval of your doctoral thesis supervisor and after consultation with your co-examiners.
- Each member of your examination committee and the departmental doctoral administration must be provided with a copy of your doctoral thesis.
- Clarify individually in which form (physical/digital) and at what time you must provide the doctoral thesis to the persons/offices mentioned above.
- The **reviews** written for the doctoral thesis must be received by the departmental doctoral administration prior to the doctoral examination. **Note:** each department has individual deadlines for this. Clarify in good time how long before the examination they must be received there.

Title of doctoral thesis

Concerning the present thesis with my signature I confirm that:

- I authored the work in question independently and in my own words, i.e., that no one helped me to author it. Suggestions from the supervisor regarding language and content are excepted. I used no generative artificial intelligence technologies¹
- I authored the work in question independently and in my own words, i.e., that no one helped me to author it. Suggestions from the supervisor regarding language and content are excepted. I used and cited generative artificial intelligence technologies²
- I authored the work in question independently and in my own words, i.e., that no one helped me to author it. Suggestions from the supervisor regarding language and content are excepted. I used generative artificial intelligence technologies³. In consultation with the supervisor,
- I did not cite them. I have not submitted this doctoral thesis to any other university,
- I have not committed any of the forms of plagiarism described in the *ETH Zurich Citation Guidelines*⁴,
- I have documented all methods, data, and processes truthfully,
- I have not manipulated any data,
- I have mentioned all persons who were significant facilitators of the work.

Date *Signature of the doctoral student*

Please send electronically with a copy of the title page of your doctoral thesis to: doktorat@ethz.ch
